

What to do

1. Make a calendar
2. Create a certificate
3. Create a web site
4. Make a photo/logo
5. Crop a photo
6. Make a Photo Album/Slideshow
7. Create a Card
8. Make it interactive!
9. Make it run on it's own
10. Turn it into photos

How to do it

12 slides with tables, or download a template

use shapes, borders, clip art and text boxes to create a certificate or download a template

Create your slides and links, save it as a web page

Create the image you want using shapes, borders, clip art and photo effects. Group them! Right Click and Save as Photo

Use the image tools to crop and modify your picture (see above)

Insert Photo Album

Use Shapes, borders, photos, and rotation to create a foldable card or download a template

Set up your show to run as a kiosk, add navigation buttons and make it an interactive announcement board

Rehearse your timings and set your Show to run by itself for an announcement board

Save as... jpeg. Put it on a card and you can turn a Digital Photo frame into an announcement board.
